Jetting

## TAKING STEPS TO SAVE LIVES

*Sewage concentration has been shown to be a leading indicator in numbers of cases. "When the number of COVID-19-positive samples in sewage go up, 3 to 7 days later, the number of reported cases go up according to the CDC."*

Serving San Antonio For 80 Years

**GUARANTEE**  
EST. 1934

We do hydro-jetting that properly cleans sewage pipes and drains by bleaching and killing COVID-19 and other deadly bacteria and viruses.
